Style PW

WASHER CAP TYPE

Steel - Zinc Electroplate and Bright Chromate Finish

High quality, heat-treated

One piece cap fasteners for unthreaded rod or stud ends. Provides big savings - better assemblies. Push on or tap with hammer...it's assembled! No threading, notching, or drilling for cotter pins! Used as hubcaps on small wheeled goods, as hinge pin fasteners, machinery rods and pivots, etc.

INCH SIZES

- Easy, speedy assembly.
- Rugged holding power.
- Sturdy construction - will not dent or deform.
- Always assembles in line - will not cock or misalign.
- Push or hammer on.
