Compartment Latch with Striker

Loquet de compartiment avec gâche

COMPARTMENT LATCH WITH STRIKER

SPAENAUR No.

099-242

(Mfr. #3-206XU)

PKG QTY. 1

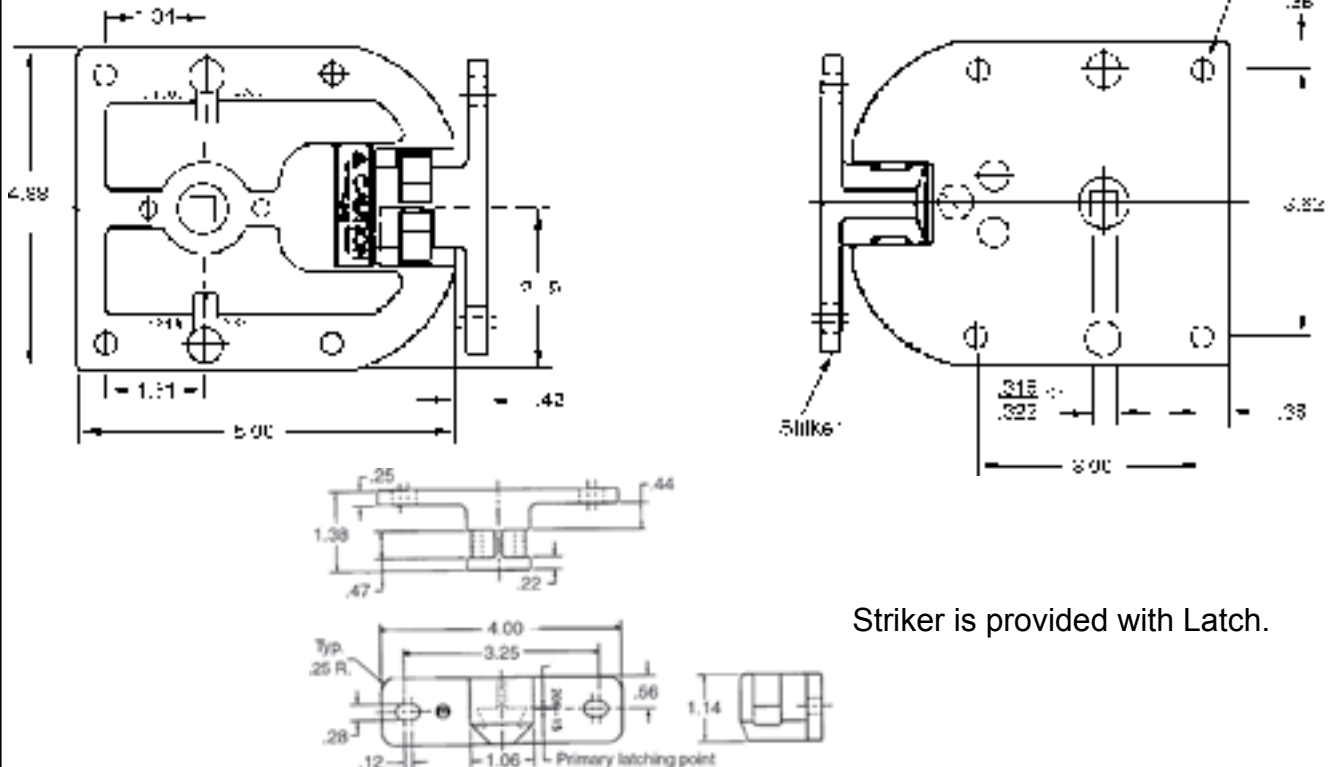

Compartment latch mechanism has been designed specifically to fit compartment applications where durability and smooth functional performance are required.

Latch can be surface-mounted on the inside of door panel or between outer and inner door skins. The enclosed strike area mechanism protects against damage by foreign objects.

099-242 can be used in conjunction with any of our handles which have a 5/16" square shank.

Material: Latch - Zinc Die-cast
Striker - Manganese Bronze

CAUTION
This Product is not Certified
FMVSS 206

Striker is provided with Latch.
