Professional Hacksaw

Strong die-cast handle provides superb comfort and control and the guarded grip design protects knuckles. The tubular frame ensures perfect rigidity and balance, in addition to providing storage space for spare blades. The hacksaw is supplied with a 12" (300 mm) HSS flex blade, which can be angled at 90 degree to the frame if necessary. Frame also adjusts to accept 10" (250 mm) blades.

SPAENAUR No. 876-1602

Overall Length 18-1/4" (465 mm) **Overall Height** 5" (130 mm)

High Quality Hacksaw Blades

The Hicut Bimetal blade is very versatile, cutting a wide variety of materials - even the most difficult alloys. Virtually unbreakable in normal use.

SPAENAUR No.	Blade Size Inch (mm)	Teeth per Inch
877-C10-1P	12" x 1/2" x .025" (300 x 13 x .065)	18
877-C27-1K	12" x 1/2" x .025" (300 x 13 x .065)	24
877-C26-1T	12" x 1/2" x .025" (300 x 13 x .065)	32

PKG QTY. 1

General Purpose Small Hacksaw

Carefully positioned "flats" to ensure correct alignment of the blade. The top quality British steel frame gives perfect blade tension during use. Texture epoxy finish.
