

**Linked Chain / Load Binders / Cutters**

Inch

**Chaînes à maillons / Tendeurs à chaîne / Couteaux**

Pouce

**Grade 30 Chain Low Carbon Steel**

Design Factor 4:1

Spaenaur No.	Trade Size	WLL (lbs.)	PKG QTY.	Approximate Weight (lbs.) Per Foot
121-720	1/8"	400	1000'	0.19
121-721	3/16"	800	750'	0.30
121-722	1/4"	1,300	350'	0.52

**Grade 70 Transport Chain**

Boron Manganese Heat Treated Steel

Never exceed working load limit of chain!

Spaenaur No.	Trade Size	WLL (lbs.)	PKG QTY.	Minimum Weight (lbs.) Per Foot
121-723	5/16"	4,700	275'	0.93
121-724	3/8"	6,600	200'	1.42

**Grade 30 & Grade 70 Chains Must Not Be Used For Overhead.**

**Standard Lever Load Binder**

- Forged Steel - quench and tempered.
- Ball and socket swivel joints at hook assemblies permit a straight line pull.
- Do not operate load binder while you or anyone else is standing on the load.
- Tighten handle in a downward manner.
- Do not use handle extension for tightening.
- Secure position of binder by wrapping the loose end of chain around the handle and tighten chain.
- Always stay "clear" of the handle as it could snap back.
- Do not close your hand around the handle.
- Inspect binder prior to use and discard in case of signs of wear.

Spaenaur No.	Chain Size	Weight Each (lbs.)	Dimensions (Inches)							Take Up	WLL (lbs.)	NBS (lbs.)
