099-325 Left Hand (Mfr. #8-240L)

Right hand shown

- Weight .25 lb.
- Carbon Steel, Zinc Plated
- Spring: Stainless Steel

The Mini Rotary Latch gives you the benefits of a two-stage rotary action for even the most confined areas. It is ideal for small hoods, lids, doors and panels, and has a maximum rated load strength of 750 lbs.

The Mini Rotary Latch is available in three different models which can be unlocked in any of three different directions to meet a wide range of applications.

The latch's low-profile design and light weight allow it to be easily mounted using two 1/4" bolts. An optional mounting bracket is available for added flexibility.

WARNING
This product must not be used for personal restraint applications.
